Stop Population Growth Now Newsletter

Issue No. 6

19nd May-2011

From the Convenor (Bob Couch)

Dennis Grosvenor, a film maker from Roseville in NSW, has produced a film titled "State of Seige". He did this in response to the NSW Govt allowing high rise development in his suburb, against the wishes of the local residents. Residents of Mount Barker and other localities in SA will relate to this situation.

Dennis has provided us with a copy of this film, which runs for about an hour.

We have hired a Wallis theatre in Mount Barker for Tuesday evening 7th June for a screening. Doors will open at 7.15pm. At 7.30, John Coulter (Committee SPGN and Vice President SPA) will provide a brief introduction, followed by the film. Those who wish can then adjourn to the coffee shop/restaurant next door for refreshments and conversation.

The attached poster gives further information, including how you can get tickets.

Please pass this information on to your networks, and come along yourselves. We are aiming to raise public awareness and possibly, to recruit some more members.
